

RESMED

Some choices are easy ... a light, effective alternative to nasal masks

- A nasal pillows system for use with positive airway pressure therapy, Mirage Swift II is from ResMed, world leaders in mask technology. You can trust it for effective, comfortable therapy.
- As light on your face as it is on the scales, the Mirage Swift II sits gently at the entrance of your nostrils without covering your nose.
- Mirage Swift II has few parts and is designed for easy handling and cleaning.

Mirage Swift II

- light and compact
- quiet
- effective
- gentle and flexible
- easy to fit
- easy to use

RESMED

Mirage Swift™ II

NASAL PILLOWS SYSTEM

Patient Information

Shshshhhh ... sleep restfully!

- Mirage Swift II is uniquely designed to minimize the effect of airflow, quietly and gently directing air away from you and your partner.
- Quiet therapy is essential so you and your partner can sleep well.
- Enjoy flexibility in sleeping positions. The tube that connects to your machine can be attached at the right or left side, facing upward or downward.

Optimal performance ... minimal system

- Mirage Swift II offers excellent performance (similar to nasal masks) in a small package.
- This nasal pillows system sits gently at the entrance of your nostrils (much more comfortable than other types of nasal systems that go too far into your nose).
- Together with ResMed's S8™ devices, it is one of the smallest therapy systems—truly 'compact without compromise'.

Fits you ... fits your lifestyle

- Mirage Swift II comes packed with three pillow sizes—one of them just right for you.
- After first time adjustments, you can fit your Mirage Swift II quickly, easily—every time.
- Mirage Swift II is designed to give you more freedom, enhancing day-to-day life. You can wear it while you read or watch television, even if you wear glasses.
- Your perfect travel mate; it packs away neatly in its own handy bag.
