

You and EasyLife with Auto Seal- a winning combination

Auto Seal technology from Philips Respironics changes the game

EasyLife is revolutionizing mask design so you can enjoy the latest solutions in comfort and get a better night's sleep. Its innovative, lightweight design includes Auto Seal technology, a collection of features designed to give you an automatic seal with minimal adjustments.

Its unique dual-cushion construction has a soft inner cushion that creates a self-adjusting seal around the nose. The supportive outer cushion and

built-in forehead pad adjust automatically, providing stability that moves with you while you sleep.

Combined, the Auto Seal features make EasyLife a comfortable, easy-to-use mask. One that is designed for a better seal and better fit so you get a better night's sleep. It's truly a winning combination.

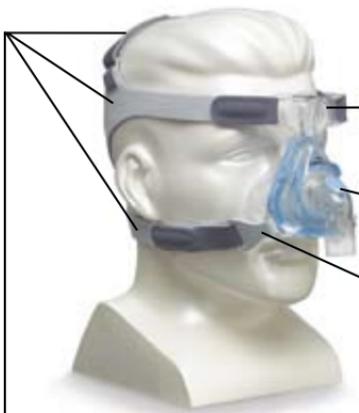

PHILIPS

RESPIRONICS

sense **and** simplicity

EasyLife nasal mask with Auto Seal

Now available through your homecare provider

Only four parts: mask frame, headgear, outer support cushion, inner seal cushion.

Forehead pad adjusts automatically with minimal headgear force.

Angled micro ports make operation quieter and redirect air away from your bed partner.

Optional clips are included making it easy to remove the mask and keep the same fit night after night.

Headgear has easy-to-use adjustable straps with a crown strap for added stability.

It's a game changer.

EasyLife with Auto Seal is unlike traditional masks. Its unique self-adjusting inner seal cushion and outer support cushion work together to help provide a comfortable fit the first time, every time.

It's simply, easy.

EasyLife is comfortable, reliable, and easy. Ask your homecare provider about the Philips Respironics EasyLife mask and get a restful night's sleep. Again and again.

Scan with your smart phone to watch a video on how EasyLife with Auto Seal technology can work for you.
