Oracle™ 452 Oral Mask

The Fisher & Paykel Healthcare **Oracle™** was the first ever developed oral mask, a milestone in mask design. The **Oracle™ 452** delivers pressure through the mouth rather than the nose, offering the patient yet another choice of delivery.

Clinically proven to function as effectively as a nasal mask, the **Oracle™ 452** is a perfect solution for mouth breathers and patients with chronic nasal obstruction who find therapy difficult with a nasal mask.

- The symmetrical design means the mask is always correctly fitted.
- The continuously adjustable rotating dial allows for a personalized fit to provide greater comfort and simplicity.
- Breathable Headgear which is cool, lightweight and comfortable.
- Easy-Release Strap and **SnapFlap™** Cover allow simple removal of the mask.
- A unique oral mask for the delivery of CPAP or bi-level therapy.
