

PEOPLE FIND COMFORT IN SIMPLE PLEASURES. THAT'S WHY WE MADE SLEEPEASY® AS SIMPLE AS POSSIBLE.

Envisioning tomorrow. Improving today.™

SleepEasy®
Sleep Therapy System

THE NEW SLEEPEASY SLEEP THERAPY SYSTEM: DESIGNED FOR TODAY'S SLEEP THERAPY BUSINESS.

Like all aspects of healthcare, the sleep therapy business is changing rapidly. But one thing hasn't changed: You need solutions that improve the health of your patients—and the health of your business. The SleepEasy sleep therapy system was designed to help you achieve both. It's a simple, reliable value-priced CPAP that you can trust—and that patients will use.

MAKING BETTER CARE AVAILABLE TO ALL.

From the beginning, Respiroics has been dedicated to developing the sleep solutions people need to live better lives. Sometimes, that means making sleep therapy simple and cost-effective—without sacrificing performance. Products like the SleepEasy system make it possible for even more people to benefit from proven Respiroics technologies. It's one more way that we are envisioning tomorrow and improving today.

VALUE: NOT JUST VALUE PRICED

Performance, portability and value are all within reach thanks to the combination of features, appealing design and price that you'll find only in SleepEasy.

QUALITY YOU CAN COUNT ON

SleepEasy is built in the U.S. and combines proven technologies and designs that have been Respiroics standards for more than 30 years—we just made them more affordable.

EASY TO USE

A permanently attached humidifier and clear, tactile control buttons make this sleep therapy system easy to set up and easier to live with.

THE FEATURES:

- Deluxe ramp capabilities allow a 0- to 45-minute period with a patient-adjustable ramp start pressure
- Lighted patient buttons control the CPAP unit
- Pressure calibration screen allows you to set target pressure to within 0.1 cm H₂O
- Three-position altitude compensation
- Quiet operation

ENCORE® PRO COMPLIANCE REPORTING CAPABILITIES:

- Data display for phone-in compliance
- Easy report generation featuring:
 - Average hours of use per day
 - Percentage of days compliant

BUILT-IN HUMIDIFIER

Lets you use heated or pass-over humidification without buying extra pieces.

A VALUE-PRICED CPAP THAT DOESN'T LOOK VALUE PRICED.

To help make therapy as natural as it can be, we've designed the SleepEasy system to look more like a natural part of a patient's bedroom and less like a medical device. We made it sleeker, smaller and less obtrusive—and its new textured casing will more easily blend into home décor.

GET MORE FOR LESS WITH SLEEPEASY.

A value-priced device that compromises the way you do business isn't a real value. That's why SleepEasy has our proven call-in compliance reporting technology. Its advanced controls allow you to manage the device while eliminating unnecessary buttons that could confuse patients. The SleepEasy system also features built-in humidification so you don't have to stock separate humidifiers in your storeroom.

IT'S THE DEVICE YOU NEED, AT A PRICE YOU'VE ALWAYS WANTED.

Perhaps the biggest reason to choose the SleepEasy system as your value-priced CPAP is because it's from Respironics. We put our 30-year sleep therapy reputation, experience and leadership into making the best value-priced device we could offer to you and your patients.

Visit sleepeasy.respironics.com for more information on the SleepEasy sleep therapy system and how it can help your patients—and your business.
